

Angela Freeman

With a background of nearly 15 years as a biologist, Angela B. Freeman is a practicing attorney, assisting clients in protecting highly technical intellectual property, particularly in the agricultural and pharmaceutical industries, such as genetic, diagnostic and therapeutic inventions, and food and drink compositions. Angela also has experience in procuring IP rights for fuel cell systems. Angela currently serves as the President of Women In Hi-Tech which promotes and supports women and girls in and entering into STEM related careers.
