

Tysha Ahmad, Jeweler

I am an artist, designer and farmer. I have been creating and designing jewelry for approximately 18 years. I work in various mediums: beading, enameling, wire wrapping, hand painted wood and silver smithing. I have taken classes in enameling and Silversmith at the Indianapolis Art Center and in Illinois. I have also taken classes in wire wrapping. Preferred metals are sterling silver and copper. I absolutely love creating and sharing my gifts with others, it calms my nerves as some days can be a little challenging.
